LED Gas Price Changers

Modern LED gas price changers provide fuel retailers with a fast, accurate, and highly visible method of displaying fuel prices while eliminating manual price changes. Designed for continuous outdoor operation, these electronic fuel price displays improve roadside visibility, reduce labor, and present a professional image for convenience stores, gas stations, travel centers, and commercial fueling facilities.

Benefits of LED Gas Price Changers

- Instant price updates without manually changing numerals.
- Improved roadside visibility day and night.
- Reduced labor and improved pricing accuracy.
- Professional appearance that enhances brand image.
- Lower maintenance and energy costs than older technologies.

Why Choose Premier LED Signs?

- Complete turnkey consultation, design, installation, and support.
- Solutions ranging from economical standalone displays to enterprise POS-integrated systems.
- Custom retrofit and new-construction solutions.
- Nationwide service and technical assistance.

Standard Features

- High-brightness LEDs
- Weather-resistant aluminum cabinets
- Single- and double-sided configurations
- Wired, wireless, and network-based control
- Long-life LED technology
- UL Listed on every model
- Standard 5-year parts warranty on every model

Available Product Configurations

- Multiple digit heights including common commercial sizes.
- Multiple LED colors where applicable.
- Cash/Credit pricing, diesel, DEF, propane, E85, EV charging and specialty fuel displays.
- Custom cabinet colors, branding, and grade indicators.

Advanced POS-Integrated Systems

- Select product lines support Point-of-Sale integration for automated synchronization between POS systems, dispensers, and roadside price displays. Networked solutions are available for multi-site operators and compatible with many industry-standard fuel retail platforms.

Built for Reliability

- Industrial-grade aluminum construction
- UV-resistant faces
- High-efficiency power supplies
- Corrosion-resistant finishes
- Outdoor-rated electronics
- Designed for continuous commercial operation in demanding environments.

Applications

- Convenience stores
- Gas stations
- Truck stops
- Travel centers
- Fleet fueling
- Municipal fueling
- Marinas
- Agricultural fueling
- Airports
- Commercial fueling facilities

Quality You Can Trust

- Every model is Underwriters Laboratories (UL) Listed for recognized electrical safety standards and backed by a standard five-year parts warranty, providing confidence for owners, installers, and code officials.

Professional Installation & Support

- Premier LED Signs provides consultation, engineering, installation, startup assistance, and ongoing support for electronic gas price signs, LED fuel price displays, digital gas station signs, and roadside fuel pricing systems.
